

# Full-featured GPS app for people who are blind!

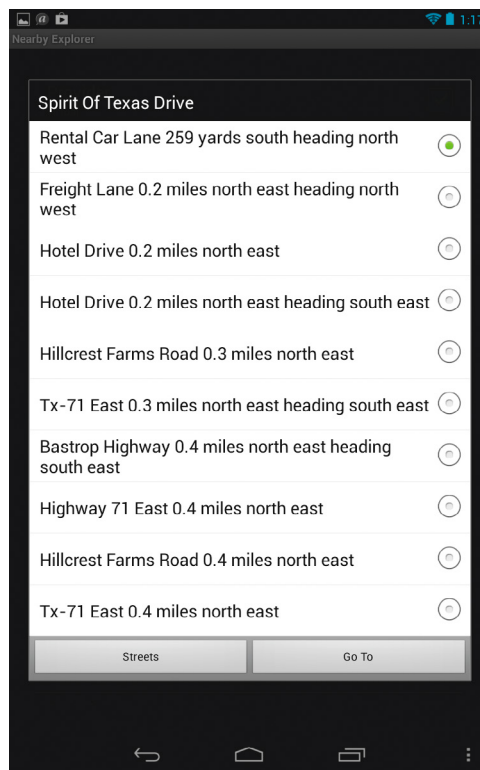

## Nearby Explorer™

A full-featured GPS app for use online and on iOS and Android™ devices that empowers you to independently explore with confidence!

### Some of the many benefits:

- Increases awareness of your position and gives updates as you move
- Learn the distance and direction of upcoming streets
- Discover surrounding streets with the compass
- Search for places, streets, and addresses
- Improve orientation to points of interest through haptic and auditory feedback

**Explore Mode** lists businesses and other POIs near your destination.

### Join Our Session!

*Nearby Explorer: Discovering the World Around Me*

**Presenter:** Keith Creasy, APH

**Date & Time:** Thursday, July 20, 2017 • 9:00-10:00 am

**Room:** Kings Garden 5

American Printing House for the Blind, Inc.

# New Feature of Nearby Explorer: Indoor Explorer™

- Beacons are strategically placed on walls and their location is mapped.
- Beacon signals its location to user's phone.
- App gathers information about the indoor environment from OpenStreetMap®.
- App compares the beacon's location and signal strength with the map to determine the user's location and points of interest (POIs).
